7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village's Construction Site Storm Water Runoff Control program will provide equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the Village for projects disturbing an acre or greater of land. The Village site plan approval process has measures in place to control sediment on-site for projects of any size land disturbance.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the Village because almost the entire Village is developed and zoned to 1/4 acre lots. The Village will review SWPPPs as they are submitted and plans to evaluate the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff Control program requirements.

C. How many times was this observation measured or evaluated in this reporting period?

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The Village plans to continue evaluating the percent of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the Village's compliance with the Construction Site Storm Water Runoff Control program requirements in the next reporting cycle. The Village will review SWPPPs as they are submitted for Village comment and approval.

6. Evaluating Progress Toward Measurable Goals MCM 5

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMP in this reporting period.

The Village Post-Construction Storm Water Management program will address storm water runoff from regulated (i.e., land disturbances of an acre or greater) new development and redevelopment projects to the Village's municipal separate storm sewer system.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the Village because almost the entire Village is developed and zoned to 1/4 acre lots. The Village will add BMPs to the inventory if they are constructed and plans to evaluate the number of BMPs inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements.

The Village plans to continue evaluating the number of post-construction storm water management practices inventoried as an indicator for measuring the overall effectiveness of the Village's compliance with the Post-Construction Storm Water Management program requirements in the next reporting cycle. The Village will add BMPs to the inventory as necessary in the next reporting cycle.

Minimum Control Measure 6. Stormwater Management for Municipal Operations

The information in this section is being reported (check one):

- On behalf of an individual MS4
- On behalf of a coalition

How many MS4s contributed to this report?

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
